THE NEW ZEALAND

JOURNAL OF AGRICULTURE

VOLUME 54.

(JANUARY - JUNE, 1937.)

INDEX.

A.

Algerian oats, germination of "new season's," 30.
Answers to inquiries, 125, 190, 254.
Ant-nests in bowling-greens, destruction of, 237.
Apiary (monthly notes), 58, 120, 184, 248, 314, 377.
Apples—
  Biennial cropping, 349.
  Fungi associated with mouldy-core of, 283.
Arohena, experiment in cobalt feeding, 344.
Ashburton County, sheep-production on mountain country of, 98.
Auckland District, lucerne-growing in, 94.
Auckland, North, grassing of consolidated sand areas of, 328.
Auckland pastures, potash top-dressing of, 8.

B.

Bacon and pork, method for judging, 203.
Bacon pigs, carcass-quality in, 147, 223.
Ballinger, C. E.—Sheep-production on the mountain country of Ashburton County, 98.
Barley (malting), grading of, 232.
Bell, J. E.—Potash top-dressing of Auckland pastures, 8.
Biennial cropping of apples, 349.
Bowling-greens, destruction of ant-nests in, 237.
Brien, R. M.—
  Fungi associated with mouldy-core of apples, 283.
  See Chamberlain, E. E., and Brien, R. M.
Butter for export, bacteriological examination of, 144.

C.

Cameron, F. E.—Grading of malting barley in New Zealand, 232.
Canterbury—
  Clovers in permanent pastures under conditions in, 300.
  New permanent pastures as green-feed in, 138.
Caterpillar, leaf-roller, 16.
Certificate-of-record system, 1936, 159.
Certification of seed potatoes: Provisional certificates, 1936–37, 352.
Certification of seeds, 1935–36, 43.
Certification of seed wheat, 175, 253, 303.
Chamberlain, E. E.—
  Pea-mosaic, 129.
  See Taylor, G. G., and Chamberlain, E. E.
Chamberlain, E. E., and Brien, R. M.—
  Tomato-seedling damping-off, 321.
Chinese gooseberry, 105.
Chemistry Section — Limonite for stock-lick purposes, 175.
Citrus culture (monthly notes), 54, 116, 180, 243, 310, 373.
Claridge, J. H.—Seed certification, 1935–36, 43.
Clovers in permanent pastures under Canterbury conditions, 300.
Clover—
  Strain in subterranean, 82.
  Subterranean, in North Island, 25.
Cobalt-feeding experiment at Arohena, 344.
Coccidiosis in poultry, 274.
Codling Moth, 16.
Competitions, farmers' field—
  Otago and Southland, 286.
  Wellington District, 75.
Connell, R. P.—The Farm (monthly notes), 49, 111, 176, 238, 304, 368.
Cows—
  Certificate-of-record system of testing purebred, 159.
  Government official herd-testing of purebred, 33, 110.

Croucher, W. J., and Nielsen, E. P.—
Lay-out and housing for dairy-farm piggery, 290.
Cussen, C. J. C.—Poultry-keeping (monthly notes), 56, 118, 182, 245, 312, 374.

D.

Dairy Cows—
Government official herd-testing of purebred, 33, 110.
Testing of purebred, certificate-of-record system, 1936, 159.
Dairy Division—Government official herd-testing, 110.
Dairy-farm piggery, lay-out and housing for, 290.
Dallas, W. K.—Spray schedule for control of principal orchard diseases and pests, 15.
Damping-off tomato-seedling, 321.
Davidson, H. R., Hammond, John, Swain, J. B., Wright, Nevill L.—
Method of judging pork and bacon carcasses, 203.
Dayus, C. V.—
Dipping mortality associated with vibrion septique infection, 170.
Vaccination of ewes against "pulpy kidney" (infectious entero-toxæmia) in lambs, 65.
Digging seed potatoes, 297.
Dipping mortality associated with vibrion septique infection, 170.

E.

East Coast (North Island), lucerne in, 172.
Earp, E. A.—The Apiary (monthly notes), 58, 120, 184, 248, 314, 377.
Export butter, bacteriological examination of, 144.

F.

Farm, the (monthly notes), 49, 111, 176, 238, 304, 368.
Farm forestry, 193.
Farmers' field competitions—
Otago and Southland, 286.
Wellington District, 75.
Feeding, cobalt, experiment at Arohena, 344.
Fertilizers, importation of, 1934–35, 1935–36, 48.
Fields Division—
Farmers' field competitions (Otago and Southland), 286.
Grading of malting barley in New Zealand, 232.
Seed-wheat certification, 175, 253, 303, 382.
Fitch, L. W. N.—Coccidiosis in poultry, 274.
Flay, A. H.—Clovers in permanent pastures under Canterbury conditions, 300.
Flay, A. H., and Tebb, C. P.—New permanent pasture as green-feed in Canterbury, 138.
Forestry on farms, 193.

G.

Germination of "new season's" Algerian oats, 30.
Gill, Dudley A.—Johne's disease, 1.
Glandville, E. B.—Grassing of consolidated sand areas, Northern Wairoa, North Auckland, 328.
Goodwin, B. G.—The Orchard (monthly notes), 53, 115, 179, 242, 307, 371.
Gooseberry, Chinese, 105.
Gorman, L. W.—See Levy, E. Bruce, and Gorman, L. W.
Grading seed potatoes, 297.
Grainger, A. R.—Citrus Culture (monthly notes), 54, 116, 180, 243, 310, 373.
Grassing of consolidated sand areas, Northern Wairoa, North Auckland, 328.
Grimmett, R. E. R., McIntosh, I. G., Wall, E. M., and Hopkirk, C. S. M.—
Chronic zinc-poisoning of pigs, 216.

H.

Hamblyn, C. J.—
Farmers' field competitions (Wellington District), 75.
Lucerne in the Wellington, Taranaki, and East Coast districts, 172.
Subterranean clover in the North Island, 25.
Hamilton, R. G.—Biennial cropping of apples, 149.
Hammond, John—See Davidson, H.R., Hammond, John, Swain, J. B., and Wright, Nevill L.
Heifers, weaner and yearling, care of, 32.
Herd-testing: Government official herd-testing of purebred cows, 33, 110.
Hopkirk, C. S. M.—
Cobalt-feeding experiment at Arohena, 344.
See Grimmett, R. E. R., McIntosh, I. G., Wall, E. M., and Hopkirk, C. S. M.
Horticultural Division.—Destruction of ant-nests in bowling-greens, 237.
Horticulture (monthly notes), 60, 121, 186, 249, 315, 378.
Hyde, E. O. C.—Germination of "new season's" Algerian oats, 30.
Hyde, W. C.—Horticulture (monthly notes), 60, 121, 186, 249, 315, 378.

I.

Inventions of agricultural interest, 126, 171, 303.

J.

Johne's disease, 1.
Judging method for pork and bacon, 203.

L.

Lay-out and housing for dairy-farm piggery, 290.
Leaf-roller caterpillar, 16.
Leitch, C. C.—Digging, pitting, and grading seed potatoes, 297.
Levy, E. Bruce, and Gorman, L. W.—Strain in subterranean clover, 82.
Limonite for stock-lick purposes, 175.
Lucerne-growing in Auckland District, 94.
Lucerne in Wellington, Taranaki, and East Coast districts, 172.

M.

McIntosh, I. G.—See Grimmett, R. E. R., McIntosh, I. G., Wall, E. M., and Hopkirk, C. S. M.
McMeekan, C. P.—
  Carcass-quality in bacon pigs, 147, 223.
  Rations for wintering pigs, 36.
Malting barley, grading of, 232.
Marshall, D.—Care of weaner and yearling heifers, 32.
Meteorological Office.—Monthly weather records, 63, 127, 191, 255, 319, 383.
Moir, G. M., and Russell, R. R.—Bacteriological examination of export butter, 144.
Morrison, A. E.—Wool Industry Promotion Act, 1936, 108.

N.

Nielsen, E. P.—See Croucher, W. J., and Nielsen, E. P.
North Auckland, grassing of consolidated sand areas of, 328.
North Island, subterranean clover in, 25.
Northern Wairoa, grassing of consolidated sand areas of, 328.

O.

Oats, germination of "new season's" Algerian, 30.
Orchard, the (monthly notes), 53, 115, 179, 242, 307, 371.
Orchard—
  Diseases and pests, spray schedule for control of, 15.
  Sprays, application of, 267.
Otago farmers' field competition, 1936, 286.

P.

Pastures—
  New permanent, as green-feed in Canterbury, 138.
  Potash, top-dressing of, in Auckland, 8.
Pea-mosaic, 129.
Piggery, lay-out and housing for dairy-farm, 290.
Pigs—
  Bacon, carcass-quality in, 147, 223.
  Chronic zinc-poisoning of, 216.
  Feeding, 257.
  Ration for wintering, 36.
Pork and bacon, method for judging, 203.
Potash, top-dressing of Auckland pastures with, 8.
Potatoes—
  Seed, digging, pitting, and grading of, 297.
  Seed, provisional certificates, 1936–37, 352.
Poultry, coccidiosis in, 274.
Poultry-keeping (monthly notes), 56, 118, 182, 245, 312, 374.
"Pulpy kidney," vaccination of ewes against, 65.

R.

Rations for wintering pigs, 36.
Rodda, T. E.—Farm forestry, 193.
Russell, R. R.—See Moir, G. M., and Russell, R. R.

S.

Sand areas, grassing of consolidated, Northern Wairoa, North Auckland, 328.
Scott, M. J.—Feeding of pigs, 258.
Seasonal notes (monthly), 49, 111, 176, 238, 304, 368.
Seed certification: Season 1935–36, 43.
Seed-potatoes—
  Digging, pitting, and grading of, 297.
  Provisional certificates, 1936–37, 352.
Seed-wheat certification, 175, 253, 303, 382.
Sheep-production on mountain country of Ashburton County, 98.
Singleton, W. M.—Government official herd-testing of purebred dairy cows, 33.
Spotted wilt on tobacco, 278.
Southland farmers' field competition, 1936, 286.
Sprays—
  Application of orchard, 71, 267.
  Schedule for orchard diseases and pests, 15.
Stephens, E. H., and Gill, Dudley A.—Johne's disease, 1.
Stock-lick, use of limonite for, 175.
Stuart, A.—Winton experimental and demonstration farm, 79.

Subterranean clover—
In North Island, 25.
Strains in, 82.
Swain, J. B.—See Davidson, H. R., Hammond, John, Swain, J. B., and Wright, Nevil L.

T.

Taranaki District, lucerne in, 172.
Taylor, G. G.—Application of orchard-sprays, 71, 267.
Taylor, G. G., and Chamberlain, E. E.—Spotted wilt on tobacco, 278.
Tebb, C. P.—See Flay, A. H., and Tebb, C. P.
Test, herd: Government official herd-testing of purebred dairy cows, 33, 110.
Testing of purebred dairy cows: Certificate-of-record system, 1936, 159.
Tobacco, spotted wilt on, 278.
Tomato-seedling, damping-off, 321.

V.

Vaccination of ewes against "pulpy kidney" in lambs, 65.
Vibrion septique infection, dipping mortality associated with, 170.

W.

Wairoa, Northern, grassing of consolidated sand areas in, 328.
Walker, C.—Lucerne growing in the Auckland District, 94.
Wall, E. M.—See Grimmett, R. E. R., McIntosh, I. G., Wall, E. M., and Hopkirk, C. S. M.
Weaner and yearling heifers, care of, 32.
Weather records (monthly), 63, 127, 191, 255, 319, 383.
Wellington District farmers' field competitions, 1935–36, 75.
Wellington District, lucerne in, 172.
Wheat, seed, certification of, 175, 253, 303, 382.
Whelan, J. W.—Chinese gooseberry, 105.
Winter rations for pigs, 36.
Winton experimental and demonstration farm, 79.
Wool Industry Promotion Act, 1936, 108.
Wool-production, 1930–36, 47.
Wright, Nevill L.—See Davidson, H. R., Hammond, John, Swain, J. B., and Wright, Nevill L.

Y.

Yearling and weaner heifers, care of, 32.

Z.

Zinc-poisoning, chronic, of pigs, 216.
